Notice

Subject: Collection and Return of Old IDs for Transition to RFID Smart Cards

Dear First-Year Students,

I hope this notice finds you in good health and high spirits. I am pleased to announce that our college is implementing a more advanced and efficient system in our library by introducing RFID technology. As part of this upgrade, college is introducing RFID-enabled smart cards, which will serve as both your College Identity Card and Library Card, offering a range of benefits including a self-service circulation system, an anti-theft detection system, and a digital entry system etc.

The distribution of the new RFID Smart Cards will commence on July 25, 2023. You are required to collect your new card from the library during office hours between 10:00 a.m. and 1:00 p.m. Please make it a priority to collect your new card as soon as possible to ensure a smooth transition to the new system.

In order to facilitate this transition, we kindly request that you return your old College Identity Card when collecting the new Smart Card. Your cooperation in this matter will be greatly appreciated. Returning the old cards will help us maintain an accurate record and ensure a seamless implementation of the new system.

These RFID Smart Cards will enhance your experience at our college by providing a more seamless and efficient process for accessing the library resources and other college facilities. If you have any questions or concerns, please feel free to reach out to the college librarian.

I believe that this upgrade will greatly enhance your experience at our college. Thank you in advance for your cooperation and adherence to this new system.

Best Regards,

Prof. Rajiv Chopra
Principal
