ANNUAL REPORT 2021-2022

From the Principal's Desk

With immense pleasure and pride, I present before you the Annual Report of Delhi College of Arts & Commerce, University of Delhi, for the academic year 2021-2022. This Report provides an insight into the achievements of the students, teaching faculty and the non-teaching staff of the college for the academic year and sets a roadmap for our future goals. A perusal of the Report will highlight the contribution of all stakeholders maintaining a high standard of performance in the various activities that were conducted in the college.

Delhi College of Arts & Commerce was established in 1987. In the decade and a half since its inception it has established itself as a premier institution of the University of Delhi. Over the course of the years our students have excelled in various fields: academics, sports, NCC, NSS and the extra-curricular. This year too witnessed continuing Covid restrictions for major part of the academic year but despite the challenges that the pandemic threw at us, our faculty and students kept themselves actively engaged with academic pursuits. A few faculty members were invited as Resource Persons, some have delivered Keynote lecture, many have made presentations in international and national seminars and conferences, edited books and have richly contributed articles to various books, journals, and magazines. Several teachers participated in webinars, workshops, Faculty Development Programmes, and other research-oriented activities in online and offline mode. A number of promotions took place this academic year: 11 teachers were awarded Professorship, 11 promotions took place from Stage III to Stage IV, 21 teachers were promoted from Stage II to III and 17 promotions took place from Stage I to II. 2 promotions of the non-teaching staff took place in the Administration. 4 teachers successfully completed their Ph.D programme this year. The IQAC in association with the NSS and various Departments organized innumerable Talks, Webinars and other activities. NCC has brought many laurels to college and 8 of our cadets got recommended for

the Defence Forces. Our student has won a paper presentation award and a debating award. Our students have performed well in the university exams.

A lot of infrastructural expansion took place in college. The college canteen has recently undergone renovation. About 5-6 new rooms have been added for college use. We are in the process of acquiring new chairs for the classrooms and the Multipurpose Hall. The College is contemplating making a large hall, equipped with the latest technology, dedicated to academic and other activities. The Library, Administration and Accounts departments have been equipped with new computer systems for a smooth functioning of their works. The college has adopted RFID (Radio Frequency Intensive Device) which promises to provide seamless connectivity. As an energy-saving measure, the College has installed solar panels of approximately 200 KW. There is a plan in the pipeline to set up a new Computer Laboratory equipped with new and state of the art systems. New IP based CCTV cameras have been installed on college premises for better security. The College has entered into a partnership with Apar Enterprises, to impart education in the field of Digital Marketing. Revenue would be generated from this course which would be gainfully utilised for various college developmental activities. The College has taken an initiative towards promoting eco-friendly farming practices under the rubric Agri Tourism under able guidance of our honourable GB Member, Ms. Reva Sood.

I take this opportunity to commend my students, faculty members and the non-teaching staff for their tireless efforts at self-excellence and I wish them the best in their constant endeavor in making this institution bigger and better.

Professor Rajiv Chopra
Principal

Enactus

Staying true to the core philosophy of uplifting the marginalized communities through the power of social entrepreneurship, Enactus DCAC worked on 2 projects this past year, namely Project Taaleem and Project Zaraat.

Project Taaleem aims to revolutionize the lives of the refugee children by imparting primary education through a community driven model where the teachers are identified from within the community itself. This year community libraries were set up in taaleem centers, which housed more than 3000+ books for the children. With Adani Foundation as financial partner to provide new furniture and 30 chairs were provided in our taaleem centers.

Project Zaraat is Enactus DCAC's latest project which aims to minimize post-harvest losses by equipping the farming community with affordable, portable and eco-friendly storage solutions. Zaraat further enhances the forward linkages and provides the farmers with an income boost by tying up with B2B organizations. Received mentorship sessions from Indian Agricultural Research Institute and Michigan State University. Established a composting set up. Currently working with 3 communities and looking into expanding into more communities via our collaboration with a Farmer Producer Organisation and innovate in the areas of organic farming, agro-processing etc. Organized the event Zaraat Mart to sell the farmer's produce directly to the consumers. This 2 day event proved extremely successful having sold more than 350 kgs of produce, generating a revenue of Rs 10000, and a profit of Rs.3000 for the farmers. Members of Enactus DCAC also participated in more than 15 Business Plan Competitions organized by colleges like IIT Roorkee, IIT Delhi, IIM Bodhgaya, CVS and won major positions along with prize money in the same.

The Project received an immense amount of grants and awards this year. It got a special mention in the Enactus Early-Stage National Competition 2021 held in August and is the recipient of the KPMG Business Ethics Grant 2021. Project Zaraat is awarded one of the top 4 projects globally in the Race to Feed the Planet and top 5 projects globally in the Race for Climate Action by Enactus. The Team will be presenting their project at the Enactus World Cup in Puerto Rico, USA this October 2022. Through their project they are successfully fulfilling 8 out of 17 UN SDGs and plan to sustain the project in the coming years to benefit our farmer beneficiaries. The Project has got media coverage by The Hindustan Times, Krishi Jagran and others and garnered applause from Mr. Anurag Kumar Singh, Deputy Manager at Agriculture Skill Council of India.

The Project has reduced post-harvest losses by a whopping 60%, minimized energy consumption by 20%, generated a revenue of more than 3.7 lakhs and directly impacted the lives of more than 250 farmers. It has now become a harbinger of hope for farming communities across 3 states.
