FOREWORD

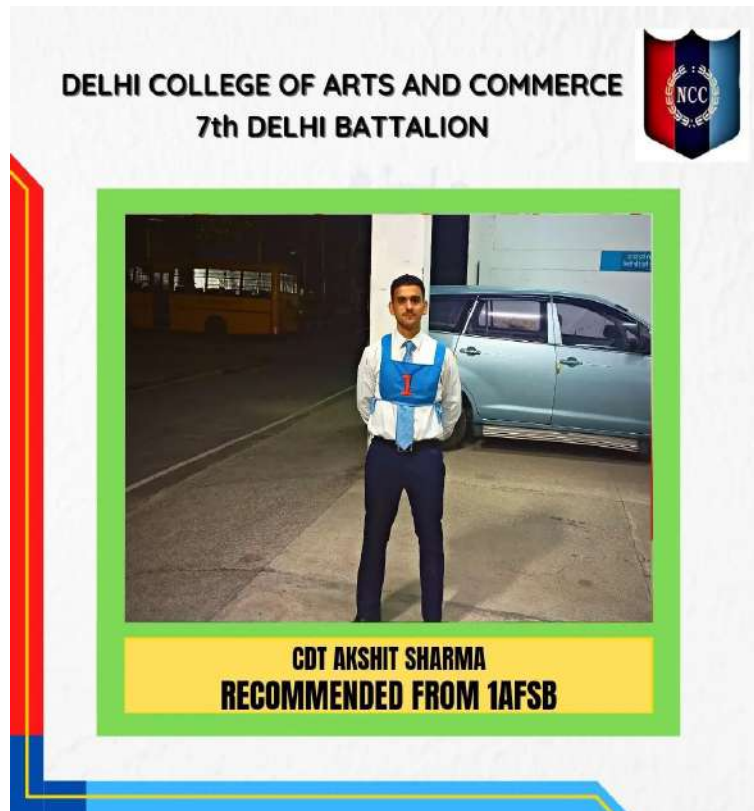

Dear Friends and Colleagues

It is my pleasure to publish this annual report of DCAC NCC unit for the training year 2022-23. Every year, the unit takes part in various activities such as social work, training activities, conferences, annual training camps, national camps etc. This year also, the unit proudly conducted its activities in close coordination with 7 DBN, the Battalion HQ. However, the physical training activities of this tenure were negatively impacted due to prevailing COVID-19 pandemic. Nevertheless, the NCC unit of DCAC adapted as per circumstances and a virtual mode of training was adopted. This Annual report is not only a reflection of such activities and initiatives undertaken by the cadets but also reflects the hard work and dedication displayed by the cadets while performing duties regardless of difficult or challenging situations faced by them. Such experience leads to simultaneous holistic development in the cadets. Since 1987, NCC unit of DCAC has been pivotal organization bringing glory to the college and the unit in various ways. DCAC NCC has had a legacy of producing gentlemen officers which proves the hard work that the unit puts as an organization for the betterment of its cadets to be successful in all walks of life. Till now, 33 officers have been selected into the Indian army as class-1 officers and are serving with full honor and dignity. What Does "Eco-Friendly" Really Mean

Eco-friendly literally means earth-friendly and ingredients that contribute to green living. Eco-friendly products also prevent contributions to air, water and land pollution and do not harm the environment, whether in their production, use or disposal. "Eco-friendly" is also considered a greenwashing term, given that it is regularly used in misleading marketing claims. It is important that we are aware of such marketing and avoid buying products from them.

ANNUAL REPORT 2022-2023

From the Principal's Desk

It is my great pleasure and pride to present before you the Annual Report of Delhi College of Arts & Commerce, University of Delhi, for the academic year 2022-2023. This Report provides an insight into the achievements of the students, teaching faculty and the non-teaching staff of the college for the academic year and sets a roadmap for our future goals. A perusal of the Report will highlight the contribution of all stakeholders maintaining a high standard of performance in the various activities that were conducted in the college.

Delhi College of Arts & Commerce was established in 1987. In the decade and a half since its inception it has established itself as a premier institution of the University of Delhi. Over the course of the years our students have excelled in various fields: academics, sports, NCC, NSS and the extra-curricular. In this academic year too our faculty and students have kept themselves actively engaged with academic pursuits. The various departments under the aegis of IQAC proudly hosted lectures, talks and webinars through the year. Many of our faculty members acted as Resource Persons, some have delivered Keynote lecture, many have made presentations in international and national seminars and conferences, edited books and have richly contributed articles to various books, journals, and magazines. Several teachers participated in webinars, workshops, Faculty Development Programmes, and other research-oriented activities in online and offline mode. Our faculty members' constant pursuit of excellence resulted in 7 professorships to be awarded this academic year. I am proud to announce that 58 permanent faculty appointments were made this year: 23 in the Commerce Department, 2 in Computer Science Department, 7 in economics Department, 4 in English Department, 2 in EVS Department, 5 in Journalism Department, 2 in Mathematics Department, 9 in Political Science Department and 4 in Hindi Department. 4 faculty members successfully completed their Ph.D programme this year. The permanent position of the Librarian was filled. 5 promotions of the non-teaching staff took place in the Administration. The IQAC in association with the NSS and various Departments organized innumerable Talks, Webinars,

and other activities. Our students have performed well in the university exams. An MOU was signed, under which the well-tended college playground would not only boost sports activities but would also prove to be a revenue-generating resource for college. Our NCC cadets continued to bring laurels to college, SUO Tanmay Mittal got recommended by 22 Service Selection Board, Bhopal for becoming an officer in the Indian Army and CDT Rohit Roshan got selected as a General Duty Soldier in the Seema Suraksha Bal. Our rising sport star Yatish from English Honours has had the privilege of being trained under IPL and is enrolled in Under 19 Delhi Cricket team. Our students have presented research papers and won several competitive events. We entered into an MOU with Delhi University to set up a Career Development Centre in college to foster an ecosystem which would inculcate entrepreneurial values and self-reliance among students which would create job-givers rather than jobseekers in future.

A lot of infrastructural expansion took place in college. We have a state of art, soundproof Seminar Hall with smart projection facility and great acoustics. We boast of a newly refurbished college canteen which has been done with the proceeds of the successfully run Digital Marketing course. As an energy-saving measure, the College has installed solar panels. An upgradation of classroom furniture has taken place wherein we have procured lot of chairs and benches. Four smart displays have been installed in the committee rooms and seminar room, which will greatly enhance the teaching-learning experience in this digital age.

Our students have won a paper presentation award and a debating award.

The library has added many new facilities /features this year. It is fully computerised and uses the library management software Koha on a cloud server to manage the housekeeping operation, acquisition, circulation, stock verification etc. It also provides a web based OPAC facility that is remotely accessible 24 hours a day.

I take this opportunity to commend my students, faculty members and the non-teaching staff for their tireless efforts at self-excellence and I wish them the best in their constant endeavour in making this institution bigger and better.

Enactus

Active Project- ZARAAT

- **Project Zaraat**, with an active team of 83 members aims to minimize post-harvest losses by providing an affordable, portable, and eco-friendly storage solution to small and marginal farmers. Post-Harvest losses amounting to 93,000 crores per year, refer to the losses taking place after harvesting but before final consumption, the primary cause of which is lack of proper storage and transportation facilities. This forces the farmers to practice distress selling and leads to a loss of bargaining power. Small and marginal farmers, who constitute close to 86% of the farmer base, bear the brunt of this problem.
- We have set up 6 Storage Solutions in our farming communities in the states of Delhi, Haryana, and Uttar Pradesh. We aim to uplift the farming communities by our sustainable business model and we have reduced post-harvest losses by a whopping 60%, and minimized energy consumption by 20%. Generating a revenue of more than 2 lakhs and directly impacting the lives of more than 250 farmers, Zaraat has now become a harbinger of hope for farming communities across 3 states.
- We have collaborated with Indian Agricultural Research Institute and the agricultural Department of Michigan State University; they are our educational partners.
- Furthermore, we have been featured in various social media publications like Hindustan Times, Krishi Jagran, The Morning Standard, The Logical Indian, etc. and we have been honoured to receive Letters of Appreciation from civil servants and political personalities.
