

## **CERTIFICATE OF COMPLETION**

### **Energy Audit & Lighting Assessment study 2021-22**

We have conducted the aforementioned assignment for **Delhi College of Arts & Commerce (DCAC)** for the academic year 2021-22 and submitted a comprehensive report

It is noted that College is utilizing the available inventory (Lights, Fans, AC, etc.) very conservatively specially in the Summer months, which is a commendable performance on Energy conservation.

Further it is recommended that the already procured 200 KW Solar photo voltaic system (SPVS) should be commissioned & connected to the Main grid so as to ensure good contribution of Renewable energy leading to higher level of sustainable performance
