9 The library facilities for self-learning are
91 responses

10 Overall ambience of the college is
91 responses

Please provide suggestions for improvements, if any.

- Improve Infrastructure
- 1. Classroom facilities could be better, the seats are not cleaned regularly, rooms stays hot. 2. AC could be installed in canteen as in summers like this we feel suffocated in there. 3. Sports items such as bats and balls for cricket are not available because sports room stays locked all time, it rarely opens.
- More variety of foods list can be added in the canteen. 2) Please improve the boys toilet. 3) Please improve the fans of the classroom in the new building
- The internal evaluation process should be made more transparent and free from personal bias. Additionally ,the college needs a neat and clean environment be it classes or washrooms.If not air conditioners then atleast the Fans should be in better working conditions. Overall the ambience of college and teaching is good but these issues need to be addressed. Thanks
- The college should improve upon promoting internships for all courses, especially ones like journalism. Practical learning is very scarce. As a student of journalism, I have hardly had any exposure to the media lab which is still under construction. Moreover, most of my classes throughout the day are cancelled, the teachers are unwilling to take classes. Assignments are such that they make no improvements in cognitive ability but just below basic curriculum which students can copy-paste direct from the internet. As the curriculum and teaching is below expectations, most students strive to get internships outside college and then when they are invested in the same, the college cuts down their attention, all for the sake of cancelled classes, rote-learning and 6 hours of unproductivity. DCAC as a journalism school should aim to connect its students with the industry and ensure that its teaching empowers students for a career in the media industry which is in the first place not very welcoming for freshers. Moreover, our journalism faculty recently scrapped off the idea of allowing students to write a dissertation in their final year and if this tren continues, I'm scared that DCAC is hindering me from developing my portfolio in the field and advancing my career. I hope improvements are made in the coming year and for the sake of preserving the department of journalism within DCAC.
- Time table shall be more accessible and reaching out to teachers for initial lectures should be easier, like most of the students don't know there subject teachers. College should encourage work culture and competitiveness amongst students by allowing them and even helping them out with securing internships, jobs and National level Competitions.
- College should allow student organise different programs which help them gain real life experience and in building CV,college need to improve it's sports department it's worst in whole du circle,also college should have to improve its water facilities, Ac of library is not in working condition and college should at least install AC in
- College should check the water purifiers, it should be regularly sanitized and make sure the water is available all the day.
- The timetable should be ideally designed so that a student is not bound to attend classes from 8 am to 3 pm
- the college really have to work on its infrastructure and website should be updates with latest information and placement records.

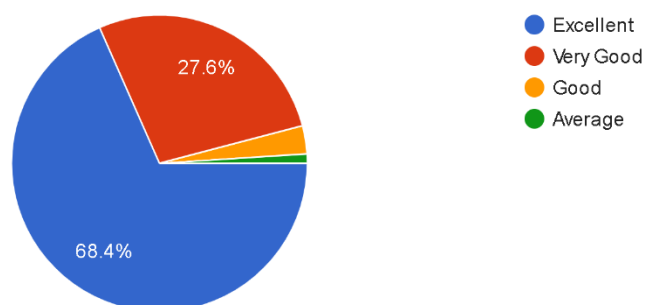

- Please maintain proper sanitation facilities like in the washroom or install the wash basin near the canteen area so , students wash their hand , people are using water cooler for washing hand that causes wastage of the water, not a single classroom that having facility of the smart board class, and the we paid 20000 thousand fees but till now we can't get access of the studio of the clg, for the Journalism students, till now we are in 4th sem only 1 year left, I don't think it will be opened till our batch.sometimes in the afternoon there were no water in the college premises. I don't complain for the things like installation of The air conditioning or else, but this was the genuine problems that we faced, some teachers were also , not taking care of the students emotional value, I hope in the clg not only teach emotional intelligence as a subject, but some teachers also learn emotional value in there daily life.
- Teachers should complete syllabus at least once with proper time. Many teachers don't complete syllabus and also don't give adequate time on topics. Tutorial classes don't get conducted, and teacher mark bad tutorial score i.e. unfair.
- Teachers are always unable to complete the syllabus. Library also doesn't have enough books for each subject and most of the time no book is available for major subjects.
- -More measures can be taken by college authorities and staff for providing good and relevant internship opportunities -Need Smart classes -Demerit of having a small campus can be diminished if the environment, ambience and infrastructural facilities can be improved like installation of ACs , smart boards etc.
- Coolers and better ventilation in classrooms during summers
- Please be faire in internal assessment process
- All over is best no need improvement
- There is a need to improve the teaching process, college politics should be active and there is a great need to improve the infrastructure, work should be done neutrally not with the dominance of any ideology which is happening a lot during these days And power should not be in the hands of a few people and the principal sir should take part in college activities and not remain in the office all day and societies should have good funding especially to the debating societies that's it.
- Infrastructure can be improved by a lot without huge structural changes
- Education should be practical and skill based. Education infrastructure should be well developed. The library should have a good quantity of latest edition books of all subjects. The teacher should be well trained as per the latest norms. Students should be taught how to start their own business and avail a job opportunity in a reputed organization.
- There should be more cleanliness in the college campus especially near the canteen area and the ground. There is absolutely no maintenance in these two areas.
- None
- Infrastructure needs to be maintained. Washrooms are in the worst conditions.
- To maintain sanitation in the washroom and in the corridors. To maintain hygiene in the college canteen and proper cleaning in the canteen and in the corridors. Cleaning, sanitizing and disinfecting surface on a schedule it helps to keep healthy environment.
- These measures can be considered:- 1) Provision of AC. 2) Digital classrooms.

- First of all, put options below "average" in the Google forms.
- Should focus more on sports activities also .
- Not needed
- College should work more on promoting internships, industrial visits and seminars. There must be equality in the choices provided to the students of different courses for SEC and VAC, the college should not just force any subject to them to study even if they are not interested in it. The teachers should focus more on the development of skills and practical knowledge rather than the theory one. Students should be given creative projects and assignments that will increase their interest and level of creativity rather than some age old question answer thing. This whole teaching learning process between the teacher and the students must be more interactive for better outcomes.
- Please request the professors to be a bit more fair in marking scheme and attendance ratios.
- This college has killed my ambition, I used to be a productive and high scoring individual in all fields. This college's ambience has destroyed my internal motivation and a lack of discipline imposed in the college is basically the reason students are so enabled to never attend the classes and the teachers to cancel classes whenever.
- Need to improve everything from scratch. Make dcac, SRCC of South campus.
- Install Air conditioner in every classroom. 2. Install LCD projectors in every classroom
- College can be more supportive towards the Career making/shaping endeavours.
- Take students voices into consideration if necessary
- Regular maintenance of the college infrastructure should be done.
- Please provide ground for college fests
- The quality of the food at the canteen can be improved a bit, providing healthier options to the students. 2. The conditions of the washrooms needs some fixing. 3. Classroom desks and benches are found to be not cleaned at times and some of them are even broken. 4. Online means should be devised to contact Admin and submit our query there to save time.
- It would be good if there is more development in infrastructure

2023-24
ANALYSIS OF FACULTY MEMBERS' FEEDBACK
ON ACADEMIC PERFORMANCE AND AMBIENCE OF THE INSTITUTION

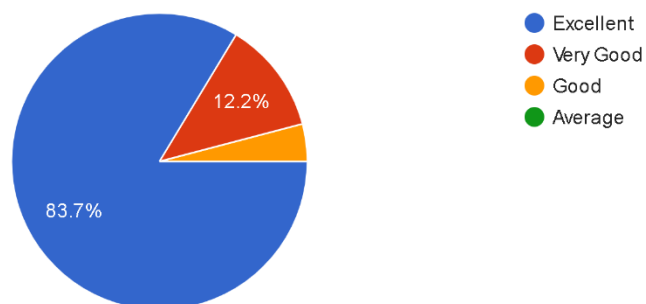

1 The relevance of courses/papers offered in Delhi College of Arts & Commerce to the current Industrial needs is

98 responses

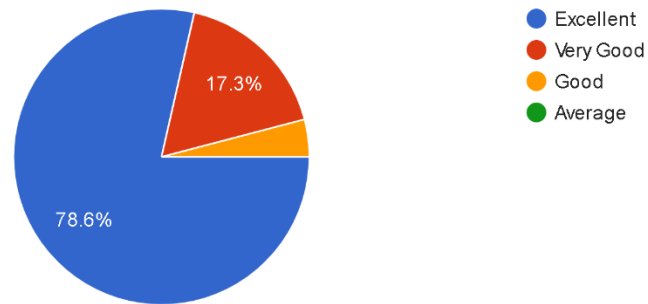

2 The college's efforts in facilitating faculty members to participate in or organize FDPs are

Any suggestions for improvement:

Canteen should be improved

Administrative office need to work on their attitude towards students. As some students have reported that dealing assistant behave badly with them quite often.

Our Principal sir is very cooperative. Admin staffs should also be cooperative.

College is trying it's level best to improve the infrastructure.

Improve the quality of canteen food and maintain the hygiene.

Planting more trees would be a commendable.

Remove old fans and install new ones with regulator in the classrooms

More student-centric curricula needed.

We shall strive to make it more beneficial for all the stakeholders.

Very Good Environment.

Inter departmental educational tours/activities can be increased. It will go with spirit of NEP 2020

Students need to have round the clock access to the computer lab

Introduction of ERP will make the workflow smoother.

College sports complex could be better

Need of better infrastructure

We must try to focus more on organising national level workshops n conference

2023-24

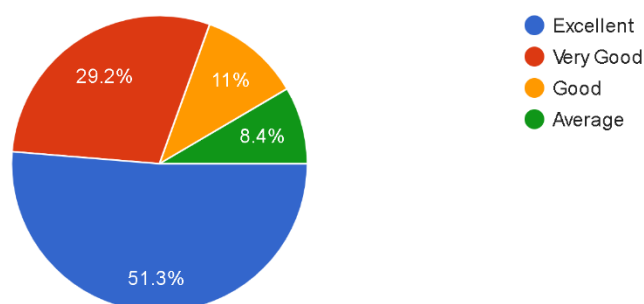

ANALYSIS OF ALUMNI FEEDBACK

ON ACADEMIC PERFORMANCE AND AMBIENCE OF THE INSTITUTION

DCAC truly values the feedback of its alumni and makes sincere efforts at further improvements. Presented below are the summary findings of the Alumni feedback forms.

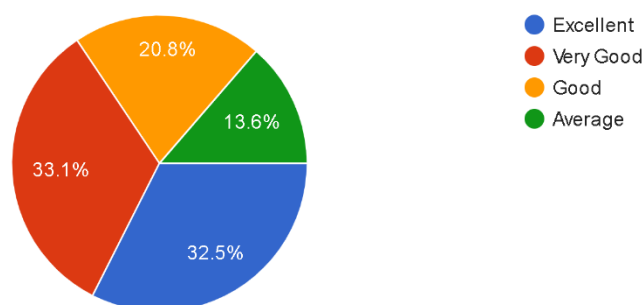

1 Rate the courses/papers you studied in Delhi College of Arts & Commerce in relation to your current job or occupation?

Please provide suggestions for improvement, if any. 46 responses

NA

No

Improve teachers quality, don't fill seats by BJP rss approach but my efficient and quality
The worst teachers got admitted no proper classes no good teacher
Infrastructure development is an area where the college can improve, along with
maintenance of the existing facilities.

Sports room, ground facilities, and water cooler problem. After every some weeks water
cooler gets damage, and college takes long time to repair it, theirs very few water cooler in
working condition in college.

कैंटीन की व्यवस्था उस समय भी ठीक नहीं थी और आज भी कुछ नया तो किया जा चुका है, परंतु अब भी खाने
की गुणवत्ता बहुत ही निम्न स्तर की है पर दाम चीजों के बढ़े हुए हैं पर उन चीजों की गुणवत्ता कहीं खोई हुई है।
बाक़ी जिम पर शारीरिक शिक्षा के विद्यार्थियों के लिए काम किया जा सकता है, उनके लिए खेलने की सामग्री
हमारे पास भी उस समय उतनी नहीं थी , और शारीरिक शिक्षा की नियमित कक्षाएं संचालित की जानी चाहिए।
जोकि शुरू से कम ही होती हैं, उसपर विचार कॉलेज द्वारा बहुत ज्यादा नहीं किया जाता उसको हो सके तो एक
दम दुरुस्त करना चाहिए।

Everything

Better canteen , better sports facilities

The need for improving the aesthetic and functional infrastructure which is common to most of the government run colleges would add to the quality and optics of the already fine institution and boost the morale of students, alumni and teachers alike

There must be AC in canteen and library for students, teachers and staffs

I passed out in 2001, that was many years ago. I loved my course AVSP. However, general cleanliness levels of the college campus needed improvement. Library could be better stocked. Canteen needed better maintenance and sports facilities could be improved upon. If the campus area can be much extended, it would be one of the biggest campus in Netaji Nagar.

Placement cell should work for all the departments let alone commerce. There are so many NGOs in Delhi that look out for fresh Humanities graduates as their interns. The initiation will really boost up the participation of all the students in general regarding all the commitments in college.

College needs to push Administration for new courses like Digital humanities and online marketing for art industry which involve the culmination of two spheres arts and tech or marketing.

EXCELLENT TEACHER

It was mild college as the facilities were not that good plus the teachers were not professional as well. The crowd was also not good. My current institution is better i.e. Amity University.

Make college faculty and ambience students friendly. Reduce the gaps of high and low class students. Make colleges Hindi language friendly also.

The only thing I found was missing during my time in college was absence to access academic journals/articles through library.

Infrastructure

The administration is horrible. It takes days if not months to get things done through them. The faculty of college is politically biased and makes it evident by compromising on results of students.

No

So many improvements needed

Infra needs to be redesigned.

More collective lectures and More active placement cell

Please provide maximum discussion among students of multiple courses. You can provide multi-purpose halls that include humanities courses like history, political science. BA Programme...last and important conversation. You must respect every course and students. goodbye dcac

Campus is comparatively very small and spending on infrastructure is highly commendable Proper recess time should be given.

Need to work on Campus Placement and overall Growth of each students..Societies are doing their job in a very Excellent Manner

Improve very everyday

Library ke discipline per dhyan nhi Diya jata , extra activities per cooperate theek se nhi karte , college admin ke behaviour bahoot poor hai , teachers regular nhi hai

I don't no y. this. Yr alumni function didn't happen..

We can have a better mechanism for Societies like Entrepreneurship,

Try to improve infrastructure and bring new methods of learning.

Infrastructure needs to be improved and constantly updated.

More support and opportunities for internship and RAship.

More student engagement activities, seminars, and industrial talks should be conducted

Academics: a.) It can be more research oriented. Research projects should be promoted for the very start. b.) Classes can be more discussion oriented based on current issues related to the subject and applications of the subject on it.

Library: It's timing should be extended a for late so that students can leverage it further. Canteen: There should be regular availability of health food like thali so that outstation students can get benefit.

Infrastructure of the college

Need to work more on promoting entrepreneurship, modern learning methods, more industrial exposure via internships/apprenticeships, etc. Needs to prepare students for the world outside of college

Would appreciate ANNUAL ALUMNI MEET from DCAC. KMC, DU organises its Alumni Meet every year & DCAC can perhaps take a cue from it & organise something on similar lines.

Infrastructure and college placement needs to be worked upon

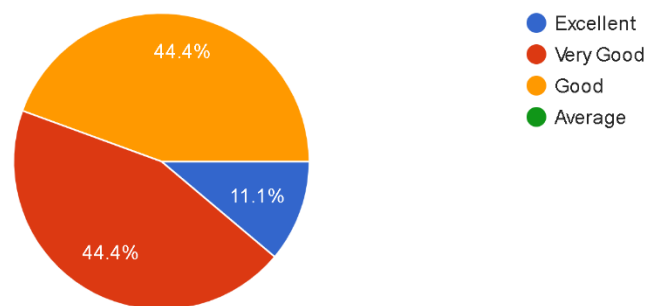

2023-24

ANALYSIS OF EMPLOYERS' FEEDBACK ON ACADEMIC PERFORMANCE AND AMBIENCE OF THE INSTITUTION

DCAC highly values the feedback from employers who hire DCAC students through its placement cell. Presented below are the summary findings of the Employers' feedback forms.

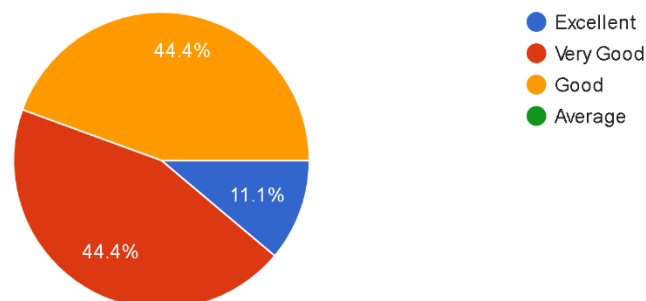

1 How well do the students of Delhi College of Arts & Commerce meet your expectations?

9 responses

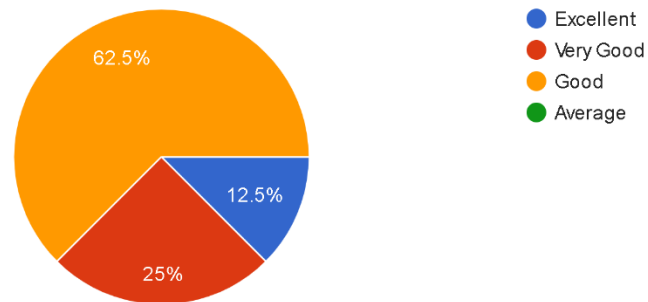

2 How up to date is the college to the current industrial needs?

9 responses

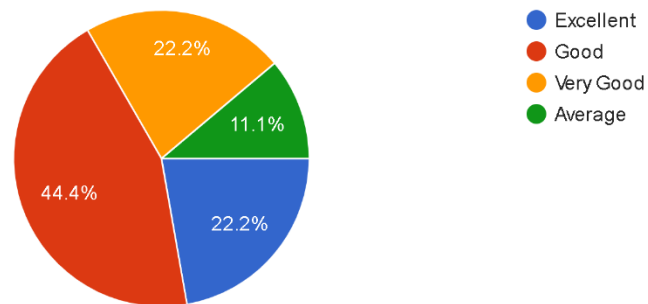

3 How do you rate the students when they are placed on the job?

4 How do you rate the students attending the interview?

9 responses

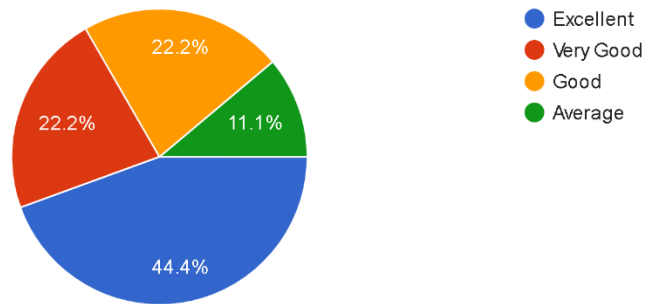

5 The student's academic and non-academic reports provided by the college are

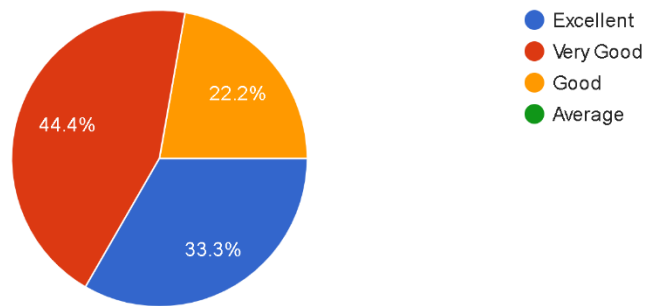

9 responses

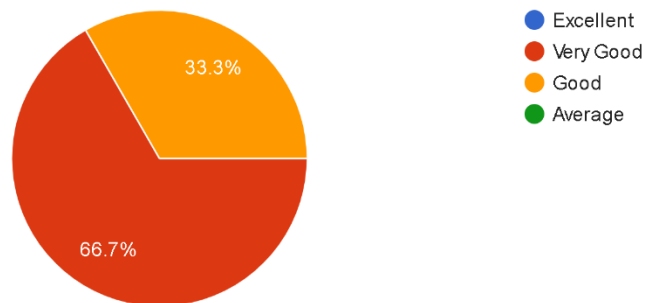

6 The college's effort for students' career progress is
9 responses

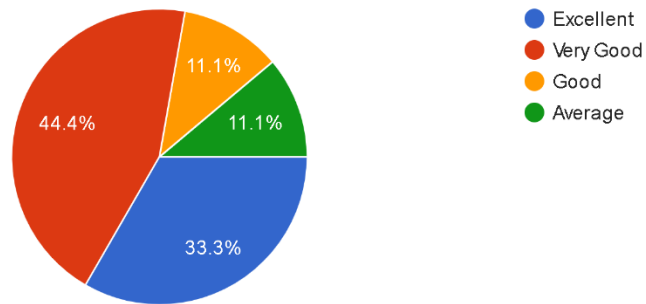

7 Your experience/impression of the college is
9 responses

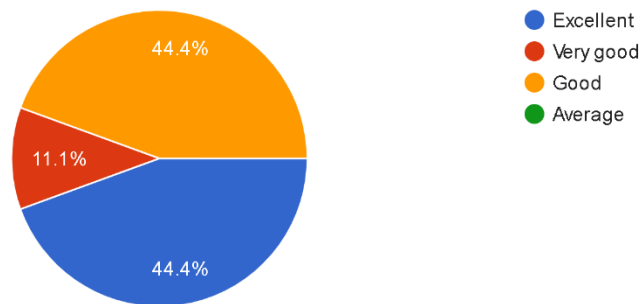

8 Practical knowledge of the students is
9 responses

9 The college's efforts in maintaining long-term relationship with the company are
9 responses

10 The ambience of the college is
9 responses

Give your suggestions for improvement, if any.

Everything is good, I love the cooperation of placement Cell.

Majority of the students who interviewed especially from the 1st year did not join as they had other options. So it adds on to the cost of hiring for the recruiters. Although the final year students are more professional and excellent with their knowledge.
