It is our pleasure to bring to you all the 2022-23 edition of Swaram, the annual college magazine of Delhi College of Arts & Commerce. Though the magazine always endeavours to highlight the talent, creativity and aspirations of students, it also strives to give its readers something new to explore. We proudly present a magazine which is a collection of poems, articles, short stories, and artworks which reflect the creativity, innovative ideas and calibre of our students. This year's magazine explores a wide range of topics; from romantic love to unfulfilled love, from serious articles on G-20, on India's contribution to World Wisdom, on Indian freedom struggle, and Ecofeminism to farce on corruption and corrupt politicians.

As Covid-19 effaced in its intensity, and college worked in complete physical mode, this year witnessed the enthusiasm of the students in celebrating all societies and departments' fests with great gusto and energy. Our students are a storehouse of talent. This is also reflected in the photos and the artworks which will give the readers not just a colourful tour of all the events and activities organised by various societies, but also capture the spirit of enthusiasm. This year we have added a special section to our magazine called 'The Alumni Corner' where motivational messages of a few eminent alumni of our college will be highlighted. With this hope that you enjoy this edition as much as we did in presenting it to you, we extend our heartfelt thanks to everyone who contributed to this edition - from student contributors to those who clicked the photos to the one who designed the cover page to our student editorial team for their sincere effort and hard work in putting this annual magazine together. We look forward to bringing more interesting content in the future. With this hope, we wish you all a happy and colourful year ahead.

कोविड-19 अपनी तीव्रता में समाप्त हो गया और इस सत्र में कॉलेज के कार्मिकों ने कोरोना से पहले की तरह सब काम संस्थान में उपस्थित रह कर सक्रिय ढंग से संपन्न किए इसलिए यह वर्ष छात्रों द्वारा सभी सोसाइटी एवं विभागों के उत्सवों को अत्यंत उत्साह और ऊर्जा के साथ मनाने का साक्ष्य रहा है। हमारे विद्यार्थी प्रतिभा के धनी हैं, यह तस्वीरों और कलाकृतियों में भी परिलक्षित होता है। इसके अतिरिक्त कॉलेज की विभिन्न सोसाइटी द्वारा आयोजित सभी कार्यक्रमों और गतिविधियों की सतरंगी यात्रा भी यह पत्रिका पाठकों को कराएगी और उत्साह का संचार करेगी।

इस वर्ष हमने अपनी पत्रिका में 'द एलुमनी कॉर्नर' नामक एक विशेष खण्ड जोड़ा है। इसमें हमारे कॉलेज के प्रतिष्ठित पूर्व छात्रों के प्रेरक संदेश शामिल हैं। इस आशा के साथ कि आप इस संस्करण का उतना ही आनंद लेंगे जितना हमने इसे आपके समक्ष प्रस्तुत करने का काम करते हुए लिया है। हम उन सभी का हार्दिक धन्यवाद करते हैं जिन्होंने इस संस्करण में योगदान दिया- वे विद्यार्थी जिन्होंने ग्राफिक सहयोग दिया, वे जिन्होंने मुखपृष्ठ डिजाइन किया साथ ही हमारी युवा संपादकीय टीम जिन्होंने इस वार्षिक पत्रिका को प्रकाशित करने में ईमानदारी से प्रयास और कड़ी मेहनत की। हम भविष्य में और अधिक रुचिकर सामग्री प्रकाशित करने की आशा करते हैं। इसी आशा के साथ, हम कामना करते हैं कि आने वाला वर्ष आप सभी के लिए सुखद और मंगलमय हो।

## FROM THE PRINCIPAL'S DESK

Dear Faculty Members and Students!

I am delighted to extend my heartfelt congratulations to the editorial board of Swaram, the college's annual magazine, for bringing out this edition. The magazine gives a platform for the students to showcase their exceptional talent, creativity, achievements and aspirations. The magazine is also a reflection of the hard work and patience that has gone into creating this snapshot of our college students' life. The articles, stories, poems, photographs, translations, and other creative pieces showcase the diversified perspective and interests of our students and have become a voice of their experiences gained while being part of various college societies and committees. I extend my heartfelt appreciation to the students and the faculty editorial team, who have spent hours editing the received entries and designing the layout to bring out yet another colourful edition of Swaram, which has aesthetically captured the essence of our students' creativity and achievements. I would like to extend my sincere congratulations to the editorial team and all those who contributed to this publication. I am happy to announce that the magazine has been printed and can be accessed both online and offline. I am hopeful that those who could not, for some reason, send out their entries for this edition, will be inspired and motivated to submit their entries for the next edition. My best wishes to the entire editorial team for such future endeavours.

## Cleanliness drives for Statues

Cadets of the NCC unit of DCAC are astute observers and it was noticed that many statues of local legends and symbols of culture were not optimally maintained or cleaned. With this in mind, a small drive to clean a statue in Delhi was launched and completed on 20 December 2020. Cadets participated with vigour and enthusiasm. They were responsible for the overall cleaning of the statue at Qila Rai Pithora, Ahinsa Sthal, New Delhi. The public at this point of attraction was awed and inspired by the hard work of our cadets. Their ability to get down and do groundwork for overall development was appreciated by all.

## Swachh Bharat Drive

DCAC NCC unit organized a sanitation drive from 1 October to 4 October 2019 where cadets spread awareness to sensitize the citizens about safe sanitary practices and solid-liquid waste management. Given the challenges being faced in the area of water sanitation and hygiene especially in our nearby areas, the engagement of NCC cadets in program in a spirited manner has enabled us to bring alive the idea of a clean India. The campaign by NCC cadets encouraged the people to adopt three simple habits namely washing hands at least five times a day, using toilets for defecation and drinking clean water.

While doing so is a fun learning method like street plays the cadets reached out to the people bringing out a behavioral change in them. The cleanliness drive emphasised on the belief that the adoption of hygiene habits will lead to the creation of a healthy India.

Engaging activities like demo's street plays and sketching and painting competitions were conducted. Rallies were taken by DCAC NCC cadets in different colonies. Intensive door-to-door campaigns were undertaken to spread the message and the spirit of Swachh Bharat.

## Swachh Bharat Drive

Christine Pelosi says that being green and clean is not an aspiration but an action. Keeping that in mind, when we noticed the dirt and garbage littered around the post office of Netaji Nagar, just next to our college; The NCC cadets instantly decided to act on it. Our SUO-Nishkarsh planned a cleanliness drive at the post office on 30th of August; with the approval of our A.N.O Lt. Bhupinder. The cadets divided ourselves into different groups to take onto different corners of the post office. People over there were delighted to see us and joined us in cleaning the area with great enthusiasm. We were happy to see such an enthusiastic response from the people. It took us around 2 hours to complete the cleaning and disposing of the garbage at the appropriate place. The employees of the Post office were highly pleased with our initiative and appreciated us. They arranged for a small tea party for us and thanked us for our work. We were highly satisfied with our work and it was a pleasant experience. 30 August 2019

### Cleanliness Drives @ Delhi Ridge Forest by Prakriti

On 2nd October, 2022 Prakriti collaborated with TINEB "There is no Earth-B" and organised a clean-up drive in the Ridge Forest situated in Karol Bagh, Delhi. It was organized on the birth anniversary of Mahatma Gandhi an environmentalist and who dedicated his life to spread the message and practice of cleanliness by everyone. The clean-up drive lasted for several hours during which Prakriti members collected all kinds of non-biodegradable materials such as plastic, glass, synthetic fibres etc. The waste was then collected at one place to be measured by a weighing scale. Prakriti's collaboration with TINEB resulted in a collection of 48 kgs of non-biodegradable material.

**New Delhi:** A group of volunteers collected and segregated 48 kg waste from the Yamuna bank on Friday. The group called 'There is no Earth B' claims to have cleared about 18 tonnes of non-biodegradable waste from different parts of Delhi in the past three years. It has conducted 322 clean-up drives in the city so far, said one of the volunteers.

The group, which has members from diverse fields, including doctors, engineers, students and retired people, and different age groups, organised the clean-up drive in association with Delhi College of Art and Commerce (DCAC) and collected 48 kg non-biodegradable waste. "Before the pandemic, we used to organise three-four such clean-up drives in a week, but now, we are doing just two per week. At the Yamuna bank, we segregated waste at the spot. The non-plastic waste will go to municipality while the plastic waste to Indian Pollution Control Associ-

He added, "During the lockdown, we saw how the shutting of industries led to a cleaner Yamuna. We need stringent standards for the treatment of industrial effluents that are indiscriminately dumped into the river."

Tejaswi Singh, a student of DCAC, said, "The act of cleaning the Yamuna bank was insignificant in general owing to the amount of waste that is thrown into the river. But we are happy that we could do at least something about it."

## 3.1.iv Project TanZeal

Aiming to improve the knowledge and impart education to underprivileged kids.

Two students from DCAC, Sukriti Sethi and Yashovardhan Verma and felt that there was a lacuna in the education that students from economically strained sections were receiving. The students saw slum children playing in the slums where Hotel Leela has now come up. These were children of migrant labourers. Sukriti and Yash started talking with these children and realised that they too had dreams and were keen to learn. This gave them the idea to do something for them. They decided to start taking some classes with them in the college premises. One of their friends Tanzeel, passed away while on holiday. So they decided to name their endeavour TanZeal in his memory. They started TanZeal with 4 students from the neighborhood in 2012. Today there are over 100 students who come regularly. Student volunteers take classes with these students regularly.

In Project TanZeal the underprivileged children come to the centre five days a week from 2:30 to 4:30. Student volunteers take classes with these students on many subjects. Some of the subjects they give mentoring on include: Mathematics, English and Hindi. The student volunteers go beyond merely academic teaching and also focus on the moral and personality development of their students. To facilitate their holistic development student volunteers also encourage the students to participate in extra-curricular activities and hone their skills in dancing, singing and art talent once a week. The student volunteers noticed a marked improvement in their performance in their respective schools. The volunteers also take students on regular outings to explore new places in Delhi. This expands their horizon and awareness. They were taken on a Metro ride, for a picnic to Safdarjung's Tomb. The children were taken to visit Nehru Planetarium. Prior to this outing, the children were told about the stars, the various constellations, the planets, and the solar system. They greatly enjoyed their outing which enhanced their understanding of the night sky.

The greatest evidence of success has been the improved performance of students in their respective schools. In fact, after the very first year of operations, the teachers of neighbouring schools were asking where their students were going since there was a marked improvement in their performance in school. Furthermore, students also give a live performance during the Annual NSS Mela, AADYA, held in the college premises. During this performance, they showcase their talents and also what they have learnt during the year. Students also display and sell bookmarks, diyas etc. they make in their art classes during the festival. The money generated is used for purchasing more stationery products for the children every year.

## 3.1.vi Project Vikalp

Started in 2013, this project tries to showcase the blend of traditional female art with the modern interests of today's women who dream of travelling and working toe to toe with men.

### SOLUTION

The different kinds of bags stitched by these women are then sold through various e-commerce sites, stall set-ups, and retail chains. Pilot entrepreneurs of the project from Deepalya in Tilak Nagar, have been organized into a self-help group named 'Sankalp' to carry out their functions smoothly, and are also trained in basic mathematics, spoken English, and financial literacy. They have also been taught to use intricate equipment like zuki machines for better quality and efficiency. Project Vikalp's biggest achievement has been a collaboration with the multinational company WH Smith, where a huge number of bags are marketed and sold through regular orders. A production unit has also been set up with these women, who with the help of various skill development trainings run it in a self-sufficient manner.

## 3.1.vii Project Kaushal

Pioneering an innovative community-driven model of a Skill Incubation Centre, where an entrepreneur mobilises people from the community to Skill Development Centres under PMKVY, in exchange for a mobilisation fee.

1. The Skill Incubation Centre is set up in an area of high unemployment & is managed by a member of the community who has a good hold over the same while having entrepreneurial ambitions.
2. The entrepreneur at our centre receives a mobilization fee for every person he mobilises to our partner SDCs, which is approximately Rs.500-1,000 per person.
3. Besides that, to tackle the rural-urban divide in access to technology, we use refurbished computers to provide e-services at the centre and digital literacy classes to the youth.
4. All of these services combined enable our entrepreneur to earn a sustainable income of more than Rs.18,000 every month.

## SUSTAINABILITY

The project was rolled out in Village Khampur located on GT Karnal Road in 2016, expanding rapidly to parts of Delhi- NCR such as Faridabad, Baljeet Nagar, Bhatti mines while also furthering its footprint in parts of states such as Jammu & Kashmir, Rajasthan & Uttar Pradesh.

## 3.1.viii Project Adhikaar

Adhikaar aims to empower women towards a sustainable livelihood, breaking gender stereotypes, and resolving the pressing issues of last-mile connectivity and women harassment by pioneering a non-polluting women-driven commutation service.

### THE NEED

1. Rising number of women harassment cases in Delhi, most of them taking place in the commutation sector, resulting in low female labour force participation.
2. Public transportation fails to satisfy the commutation needs of the masses due to a lack of a safe, affordable & accessible mode of last-mile commute.
3. The air quality index in Delhi has degraded to 30 times below the standard levels of the World Health Organisation, presenting an alarming and grim situation.

### SOLUTION

Adhikaar is a one-stop shop for all e-vehicle needs, accommodating numerous manufacturers, micro-financers & trainers to help women become the drivers of change. The project was envisioned to give women the freedom to choose between numerous e-vehicle manufacturers and microfinanciers, assisting them to step into the commutation sector with e-rickshaws and e-bikes, while solving the problems of last mile commute, poor air quality & the rising cases of women harassment in the last mile commute, all in one go.

### SUSTAINABILITY

The pilot began initially in Trilokpuri, a riot-affected region in Delhi, with the movement gradually spreading its wings to Govindpuri & Mundka in 2016-18. To ensure the venture is sustainable, we organized our e-rickshaw drivers into an 'Adhikaar trust', which will ultimately look after the procurement of their fellow counterparts, while also ensuring high scalability using a 'train-the-trainee' model.

## 3.1.ix Project Saahas

Project Saahas is an umbrella project which aims to provide end to end support to breast cancer survivors. Initially started with a vision to reduce taboo regarding breast cancer, it has now deepened its roots by successfully commercializing a unique cotton-based breast prosthesis.

### NEED

1. Early detection is quite essential in the treatment of breast cancer but it is still considered to be a taboo.
2. 70% of the breast cancer cases in India are diagnosed in the 3rd or 4th stage necessitating a breast removal surgery or a mastectomy.
3. With 1,65,000 cases every year, the number is all set to double by 2030.

### SOLUTION

- To solve this budding crisis, we have fabricated a patented cotton-based prosthesis made of recyclable cotton, sold under the brand name Canfem, and is AIIMS-approved, making it ideal for cancer survivors.
- Our prosthesis is a better alternative than Foam-based and Silicone-based prosthesis, as they do not cater to the problems of chronic backache, body weight imbalances, uneven drop in shoulders, and random chest pain and are not budget-friendly.
- We've also diversified further into comfortable, seamless, and affordable mastectomy brassiere for breast cancer patients.

## 3.1.x Project Taleem

Revolutionizing refugee education through a unique community-driven model that engages children with the help of active story-based learning.

### THE NEED

1. The primary school enrolment rate of refugees is a mere 61% comparing it with 95% globally.
2. Private schools are inaccessible due to high costs and lack of infrastructure.
3. Unqualified teachers and outdated methods of teaching don't act as a pull factor for the refugee children.

### THE SOLUTION

Taaleem pioneers refugee children as the changemakers in society, removing them from the stereotypes and making them a positive force for India. We, at Taaleem firmly believe that engaging parents, in their children's education is the key to solving India's illiteracy problems.

- Project Taaleem is a lightweight cloud-based solution that helps illiterate parents read stories to their children for the first time. This is the process of ABSL (Active Story-Based Learning). It simplifies complex concepts by generating engaging content.
- Storytelling takes the center stage in our solution, which is fundamental to the Early Childhood Development & over time, studies have shown that it is crucial to developing Language, Creativity, Logic & Curiosity.

## 3.1.xi Project Zaraat

Project Zaraat, the flagship project of Enactus DCAC, aims to minimize post-harvest losses and uplift the farming community by enhancing forward linkages through a self-sustaining social enterprise.

### CHALLENGES

- India registers Post-harvest losses equal to 40% of India's total major agricultural produce which amounts to a staggering figure of 92,651 crores.
- Despite being the second-largest producer of fruits and vegetables, India ranks as low as 101st on the Global Hunger Index (2021).
- There exists an approximate gap of 84-99% in the availability of storage and transportation infrastructure in India. Additionally, existing storage solutions are expensive, inaccessible, and non-eco-friendly.
- Small and marginal farmers which constitute 86% of the entire farming base in the country encounter problems of distress selling and loss of bargaining power at the hands of the middlemen.

### NEED ASSESSMENT

To better understand the plight of this community, we assessed the current alternatives available to the farmers, and found that India oversees a gap of 84-99% in achieving the target of improving its storage facilities. Out of the ones that do exist, 75% store only potatoes. Our market analysis led us to conclude that the current storage alternatives are expensive, inaccessible, and not environmentally friendly.

### SOLUTION

- Identifying a market need for an ecofriendly and portable storage solution, we innovated Project Zaraat!
- In partnership with SaptKrishi, we introduced a solar-powered portable storage with a 300kg capacity that maintains freshness and slows the ripening process.
- The solution requires 10 watts of electricity generated by solar power. At the same time, the battery attached ensures a one-day backup, reducing energy consumption by over 80%.
- The storage uses evaporative cooling and requires 2 liters of water per week. This environment-friendly innovation essentially creates a microclimate inside the storage, increasing the shelf life of the produce by 15 days.
- Besides this, we have sustained our previous collaboration with Tan90, another storage solution that also works on the same principle.
- This enabled the farmers to fully utilize their potential bargaining power and increase their profit margins.

## MARKET LINKAGES and COLLABORATIONS

- We further analyzed various distribution channels and conducted successful meetings with B2B companies such as **Crofarm**, and **Zomato Hyperpure**, and restaurant chains like **Pind Baluchi**, citing payment security, an average rise in income of 15-20%, and consistent demand.
- We have collaborated with **Bijak** wherein we have integrated our farmers into an Online Agri Commodity Trade platform.
- Moreover, we found that crop residue was of no use to the farmers and was being burnt as a result. To tackle this problem, we have set up **composting bins in collaboration with Rise Foundation**. The compost thus produced will help boost production and substitute the use of fertilizers.
- To monitor the data of our diverse beneficiaries, we have conducted digital profiling in association with **Samunnati, India's largest agri-tech enterprise**.
- Realizing that crop productivity is inadvertently based on soil health, we leveraged the invaluable experience of our channel partner – **Kisaan Helpline** by conducting **soil testing** in its accredited laboratory, testing soil quality on 14 parameters.
- Witnessing the global shift towards digital agriculture gave rise to the idea of **Zaraat portal**, a one-stop solution for the farmers to easily access our very own curated database of resources allowing them to purchase agricultural inputs at a cheaper rate.
- Seeing our zeal and passion for social entrepreneurship, **Adani Foundation** agreed to serve as our financial partner, helping Zaraat reach greater heights.

**ZARAAT MART**  
To venture into the B2C model, we organized Zaraat Mart to sell the farmer's produce directly to the consumers. This 2 day event proved extremely successful having sold more than 350 kgs of produce, generating a revenue of Rs 10000, and a profit of Rs.3000 for the farmers.

## SUSTAINABILITY

To ensure the project's sustainability, our farmer entrepreneur will evolve as the overseer of the project allowing them to manage and own the storage, after recouping our investment. Staying true to our aim, we have:

- ➔ Reduced post-harvest losses by a whopping **60%**.
- ➔ Minimized energy consumption by **20%**.
- ➔ Generating a revenue of more than **3.7 lakhs**.
- ➔ Directly impacting the lives of more than **250 farmers**.
- ➔ Zaraat is now functional in communities across **3 states**.

## 3.1.xii Project Riayat

### NEED

- In India, individuals with physical disabilities are often ostracised from society and their hardships are overlooked.
- A staggering 30 million people confront the formidable challenge of physical disabilities. Among them, 44.7% face locomotor disabilities, which not only hinder movement but also impact self-expression, independence, and self-esteem, leading to severe mental health conditions.
- Such individuals encounter various challenges in dressing, which hinder their mobility, motion, and dexterity. From the frustration of removing prosthetic limbs to the struggle of wheelchair users in donning lower garments, these obstacles deeply affect their lives and livelihoods.

### SOLUTION

Enactus DCAC conceived Project Riayat to address this concern. Riayat endeavors to empower specially-abled individuals by providing affordable adaptive clothing solutions, creating employment opportunities, and reducing the reliance on caregivers for an enriched daily living experience. Simultaneously, it tackles the issue of surplus textile waste through a self-sustaining social enterprise.

### ADAPTIVE CLOTHING

- These clothing are specially designed for individuals with physical limitations, aiming to simplify dressing and undressing while countering social stigmas and stereotypes.
- Designed innovatively to resemble normal clothing from the outside, they feature hidden Velcro or magnetic closures, easy-to-use zippers, tear-away sleeves, and front or side openings, ensuring smooth dressing experiences with utmost comfort and convenience.

# Delhi College of Arts & Commerce

University of Delhi  
Netaji Nagar, New Delhi 110023

Riayat actively organises sensitization camps to raise awareness and educate participants about the issues faced by persons with disabilities, fostering understanding and empathy within communities. The Riayat portal offers mental health counselling sessions, an online community for individuals with special needs, promoting a positive body image and improving psychological and emotional well-being.

## PROJECT MODEL

Furthermore, with a five-step business model from community identification to setting up production units, market linkages, and imparting skill training and entrepreneur creation, it works towards the goal of a sustainable social enterprise, transforming these individuals into independent taxpayers rather than dole recipients.

Offering a unique selling point, the adaptive clothing is affordable and customisable with the aim to enhance the accessibility of traditional Indian wear for individuals with disabilities, fostering inclusivity and broader participation in cultural and social gatherings. Project Riayat also seeks to address the challenge of constraints in retail channels and limited variety, by the establishing special market linkages reducing the economic infeasibility and inaccessibility of adaptive clothing in India. This distinguishes Riayat from other competitors and establishes it as a market-leader.

As it looks ahead, the project is poised to expand its reach and make an even greater impact on communities across India. With a steadfast commitment to making life better for everyone, Project Riayat exemplifies the power of empathy, innovation, and inclusivity in creating a more equitable society. As it continues its journey, the project remains a shining example of positive change in action.

important social reformers and icons, who worked to abolish the discrimination and unfair treatment to people based on caste and gender.

Under this series cell organized various talks, discussions and floral tributes. Following are the details for the same:

## **I. Discussion and a Floral Tribute to Birsa Munda (November 15, 2019)**

Birsa Munda was an Indian tribal freedom fighter and folk hero who belonged to the Munda tribe. He spearheaded a tribal religious millenarian movement that arose in the Bengal Presidency (now Jharkhand) in the late 19th century, during the British Raj, thereby making him an important figure in the history of the Indian independence movement. His portrait hangs in the Indian Parliament Museum. He is the only tribal leader to have been so honoured.
